

# NE-700 /A SWEEP MOSQUITO REPELLER W/NEGATIVE AIR IONIZER

- Ultrasound to repel mosquito.
- Sweep frequency generator to repel different mosquito species.
- No more smelly sprays, sticky lotions or chemical odors.
- User AC supply or one 9V DC battery. ( not included )
- Ideal for both indoor and outdoor.
- Covers a 250 sq. ft. area.
- Adjustable volume control.
- Button allows testing sound output.
- Built-in Negative Air Ionizer.  
( Model : Ne-700A )

This cutting-edge unit provides a built-in sweep ultrasonic frequency generator, the emitted ultrasonic sweep from 18KHz to 25KHz which can repel different species mosquito and creates an approximate 250sq.ft. mosquito free zone with sounds you can barely hear.

Ne-700 has three selectable settings: 1 dragonfly setting, 1 male mosquito setting and 1 dragonfly + sweep frequency ultrasound setting. *Dragonfly* setting to replicate the wing-beat frequency of the dragonfly-the mosquito's most feared predator. *Male mosquito* setting to replicate the wing-speed sound of the male mosquito, this repels females who have already mated and they are the one who bite. *Dragonfly + sweep frequency ultrasound* is the most powerful setting which can repel different species mosquito.

Ne-700A is Ne-700 built-in with Negative Air Ionizer.

Dimension of this unit is 200(w) X 91(h) X 110(d) mm.
