

# Ne-808 Sonic Cap

When you working inside your garden, those annoying small flying insects from grass field may attack your face and arms from time to time. Since those standard insect repellent ointments are not supposed to apply onto one's face. Now your face is 100% opened for those insects attack.

The Sonic cap emits ultrasonic wave energy beaming downward to cover your face and also body. The ultrasonic wave beam is a very effective way to keep those flying insects as well as mosquitoes away from you.

- **Effective Distance : 25 ft<sup>2</sup>**
